

Making Houston's energy go further?

Absolutely.

ABB is one of the world's leading engineering companies, helping customers to use electrical power effectively and to increase industrial productivity in a sustainable way. We deliver solutions that raise productivity and reduce environmental impacts for utilities, industry, transport and infrastructure.

Innovation and quality are the hallmarks of our offering, which ranges from switches to industrial robots to engineering and expert service, from transmission and distribution networks to software that manages entire factories. With roots in power and automation that go back to the 19th century, our innovations have shaped the world we know today and are helping to create a better world for tomorrow.
